

Bridges to Success Survey - Version 5.01.2017

Field	Question	Answer
intronote	<p>Welcome to the Mobility Mentoring Pilot Survey. Please swipe or press the Next arrow to continue to the next question. You can return to an earlier question and edit your answer at any time by using the back arrow on the left side of this prompt box. If you have questions about any part of this survey, please feel free to ask the Mobility Mentoring staff for help.</p> <p>Please press the Next arrow to continue with the survey.</p>	
Consent for Participation		
consent_form	<p>Consent for Participation in Research</p> <p>Title: Bridges to Success – Professional Mentoring Program Principal Investigator: David Phillips</p> <p>Introduction</p> <p>The purpose of this form is to provide you information that may affect your decision as to whether or not to participate in this evaluation. The Bridges to Success staff who presented you with this consent form will answer any of your questions. Read the information below and ask any questions you might have before deciding whether or not to take part. If you decide to be involved in this research evaluation, this form will be used to record your consent (permission).</p> <p>Purpose of the Study</p> <p>You have been asked to participate in an evaluation about the impact of adult mentoring services on the lives of people in the Rochester area. The Rochester-Monroe Anti-Poverty Initiative has asked evaluators from the University of Notre Dame and the Rochester Institute of Technology to help run this evaluation, in order to learn how mentoring service programs might improve people's lives, as well how we can improve service offerings in the community to better meet people's needs.</p> <p>What will you be asked to do?</p> <p>If you agree to participate in this evaluation, you will be asked during this appointment to complete the intake assessment that all applicants to the Bridges to Success program are required to complete. This assessment should take no longer than one hour to complete. You will be provided \$25 as a thank-you for your participation.</p> <p>Once you complete the survey, you will be entered into a lottery. Bridges to Success does not have the resources to serve all interested community members at this time, and will select participants from a lottery of interested people. Participants who are selected by the lottery will be offered a spot in the program. Participants who do not receive a spot in the program will have access to all usual services offered by the community partners. Whether or not you are selected by the lottery, you will be contacted at various points in the future and invited to take follow-up surveys. The follow-up surveys will ask questions similar to the ones you will be asked about during your appointment today (e.g. questions about education, where you work. etc.) and should last approximately one hour. If you agree to complete these future surveys, you will receive \$75 cash as a thank-you for your time. All of your answers will be kept confidential, and your identifying information will never be attached to the survey results.</p> <p>This evaluation will take place over approximately three years and will include approximately 300 study participants. If you agree to participate in this evaluation, you also provide your consent to link your data for evaluation purposes to administrative records from community partners as well as local, state and federal governmental agencies. More information about linking your data to administrative records is provided on the following page. All identifying information will remain confidential and protected by confidentiality laws.</p> <p>What are the risks involved in this study?</p> <p>The risks involved with participation in this evaluation are low and may include loss of confidential data. All confidential data used by the evaluation team will be de-identified and stored in a secure location. Only members of the evaluation team will have access to the data. Your data may be linked to administrative records from community partners as well as local, state or federal agencies. Any data that is transferred for the purpose of linking with administrative records will be encrypted and password protected in transit. No one will be able to identify you in any published results from the study.</p>	

Field	What are the possible benefits of this study? Question	Answer
	<p>The possible benefits of participation are the services you will receive through the Bridges to Success program if you are offered a spot in the program through the enrollment lottery. These will include, among other things, access to mentors and specialists in the areas of employment and dependents, individualized goal planning, and coordinated support from a network of social service providers.</p> <p>Those who are not offered a spot through the lottery will be referred to other relevant programs that may be of assistance to the applicant. There are also potential societal benefits you may experience in the long-run. Policymakers in the Rochester-Monroe area are interested in improving services in the Rochester community. This study will help inform their decisions about which programs to scale up, and how to better improve this service to better meet the community's needs.</p> <p>Do you have to participate?</p> <p>No, your participation is voluntary. You may decide not to participate at all or, if you start the study, you may withdraw at any time. Withdrawal or refusing to participate will not affect your relationship with or services received from the University of Notre Dame, the Rochester Institute of Technology, the Catholic Family Center of Rochester, Action for a Better Community, Community Place of Greater Rochester, or the City of Rochester in any way.</p> <p>If you would like to participate, please sign this form on the tablet and ask the intake worker who is helping you today for a hard copy of this form.</p> <p>Will there be any compensation?</p> <p>You will receive \$25 at the conclusion of your intake appointment as a thank-you for your time. You will be contacted approximately 12 and 24 months from now to complete additional surveys. For each additional survey that you complete for the evaluation in the future, you will receive \$75 to thank you for your participation in the evaluation.</p> <p>How will your privacy and confidentiality be protected if you participate in this research study?</p> <p>Your privacy and the confidentiality of your data will be protected at all points during the evaluation. All data used by the research team for analysis will be stripped of identifying information and stored securely, in an encrypted form. Only members of the research team will have access to the data.</p> <p>Your data may be linked to administrative records from community partners as well as local, state or federal agencies. Any data that is transferred for the purpose of linking with administrative records will be encrypted and password protected in transit. Additional information about linking your records to administrative records is included on the following page, which you will be asked to read and sign.</p> <p>In certain circumstances, other researchers or community partners may request access to de-identified information from this study. For example, researchers are often asked to make de-identified datasets available to other researchers so that other people can repeat their work and check to make sure it is correct. Alternately, community organizations may be interested in using our study data to learn about what resources are most needed in the community so they can make decisions about improvements. In these cases your information may be made available to people outside the research team in a de-identified form. We will not make publicly available any pieces of information that could be tied back to you.</p> <p>If it becomes necessary for the Institutional Review Board to review the study records, information that can be linked to you will be protected to the extent permitted by law. Your research records will not be released without your consent unless required by law or a court order.</p> <p>Whom to contact with questions about the study?</p> <p>Prior to, during or after your participation you can contact the researcher, David Phillips, at 574-631-8950 or send an email to leo@nd.edu for any questions or if you feel that you have been harmed.</p> <p>This study has been reviewed and approved by The University of Notre Dame's Institutional Review Board and the study number is 16-07-3246.</p> <p>Whom to contact with questions concerning your rights as a research participant?</p>	

Field	<p>For questions about your rights or any dissatisfaction with any part of this study, you can contact, Question anonymously if you wish, the Notre Dame Research Compliance Office, at 574-631-1461 or by email at compliance@nd.edu.</p>	Answer
	<p>Release of Information</p> <p>By signing this form, I give permission to the Wilson Sheehan Lab for Economic Opportunity ("LEO"), a research center in the Department of Economics at the University of Notre Dame with offices at 910 Flanner Hall, Notre Dame, IN 46556, to release my personally identifying information, including my name, address, date of birth, and social security number, to the hereinafter specified organizations and agencies (the "administrative record holders") for the purposes of obtaining the hereinafter specified information (the "outcomes information") from administrative records and/or information therein contained for the purposes of evaluating the effectiveness of services I receive through the Bridges to Success program (described in the previous sections titled, "Consent for Participation in Research") in improving certain participant outcomes, including my own.</p> <p>The outcomes information from administrative record holders will be provided to LEO on a de-identified basis, such that the resulting data cannot be identified as pertaining to any specific individual within the program. This authorization for the release of information shall expire ten years from its signing by myself and shall pertain to any outcomes information contained in administrative records from the period that this authorization is in effect as well as up to two years prior to its signing.</p> <p>The organizations and agencies (the "administrative record holders") to which my personally identifying information will be released are the following: the City of Rochester ("COR"), with offices located at City Hall, 30 Church Street, Room 223B, Rochester, NY 14614; the New York State Department of Labor ("NYSDOL"), with offices located at Building 12, W. Averell Harriman State Office Campus, Albany, NY 12240; the New York State Office of Temporary and Disability Assistance ("NYSOTDA"), with offices located at 40 N Pearl St # 100, Albany, NY 12207; and the Rochester Regional Health Information Organization ("RRHIO"), with offices located at 200 Canal View Blvd. Suite 200, Rochester, NY 14623.</p> <p>My personally identifying information will be used to locate and obtain from the administrative record holders the following outcomes information per month, quarter, and/or year as relates to myself : employment status (from NYSDOL); wages (from NYSDOL); dollar value of benefits received through the Supplemental Nutrition Assistance Program ("SNAP") (from NYSOTDA); dollar value of benefits received through Temporary Assistance ("TA") programs funded by the federal Temporary Assistance for Needy Families program ("TANF") (from NYSOTDA); the number and type of visits to emergency departments of health care providers (from RRHIO); the number and type of primary care provider visits at health care providers (from RRHIO); the number and type of preventable hospitalizations at health care providers (from RRHIO); and health insurance coverage status and type (from RRHIO).</p> <p>Any and all application laws and regulations regarding the privacy of my personally identifiable information and information contained in administrative records will not be violated in the execution of this authorization for release of information. My personally identifiable information and outcomes information will be stored in a secure location and only shared as authorized within this agreement or other agreements separately authorized or as already permitted under any and all applicable laws and regulations.</p> <p>Signature</p> <p>You have been informed about this study's purpose, procedures, possible benefits and risks, and you have received a copy of this form. You have been given the opportunity to ask questions before you sign, and you have been told that you can ask other questions at any time. You voluntarily agree to participate in this study and to release your information to the administrative record holders listed on this form. By signing this form, you are 18 years or older and you are not waiving any of your legal rights.</p>

ssn_note	<p>The purpose of this research study is to learn how well this program serves families like yours. It will help RMAPI make decisions about whether to expand this program to serve more families in the Rochester area. The answers you provided on this survey will help us study the impact of this program. Another important way for us to learn about the lives of people in this study is to link to information in administrative records, such as earnings records from the New York Department of Labor unemployment insurance system. We can only link to some of these administrative data sources using your full Social Security number.</p> <p>Your decision to provide your social security number here is completely voluntary. You are not required to provide this number in order to participate in the study and your decision has no effect on the \$25 cash token you will receive in appreciation for your help with the study. We will only use your Social Security number to link to administrative records for the purposes of this research study. It will never be published or released to anyone outside the research team. Your information will be kept confidential and stored in encrypted form at the University of Notre Dame. We will only share this data with the State of New York and/or the City of Rochester for the purpose of linking to administrative records. We will destroy this information after the study is complete.</p> <p>If you would like to provide your social security number, please type it below:</p>

section_14	<p>FOLLOW-UP INFORMATION:</p> <p>This section will ask you some questions that will help us to contact you in the future when we offer this survey to you again. Please remember that we will only use the information that you give us in order to find you. We will not be asking any of the contacts you provide for any other information about you.</p> <p>Also please remember that what you have provided here is confidential and that we will not be sharing any of your answers to today's questions with any of these other people.</p> <p>You are very important to this study. Your experiences over the next year will be very important in understanding how families in Rochester are changing. We will only contact you about the survey, and you can decide if you want to participate at that time.</p> <p>Please swipe to continue</p>

Social Security Number		
<i>Group relevant when: \${ssn_num} = \${hiddenfigures}</i>		
ssn_note_2	Please consider providing your full SSN below. It is very important to the evaluation. It will help us learn the most we can about how this program affects your life, particularly your employment as recorded in NY Department of Labor records. We will not use SSNs for anything except to access of state administrative records like these. We will not share your SSN with case managers at ABC, CPGR or any other agency. We will not share your employment records with public benefit programs. If you would like to provide your social security number, please type it below:	
ssn_num_2	Please enter your social security number here:	<input type="text"/>
